Projects

UI/UX Design

Real-state mobile app design

"Developed a user-friendly mobile app for the real estate sector, incorporating features such as user profiles and saved properties."

Restro-web design

"Crafted a restaurant app focused on food offerings, including a history of liked items and a convenient cart section for seamless ordering."

Laravel

Donation-Management android application

"Developed 'DonorConnect' as a BSC. CSIT 7th-semester project. Created a Laravel backend for an Android donation management app, incorporating Filament for admin functions. Ensured reliability through rigorous testing."
